Lima City Council  
50 Town Square  
Lima, OH 45801

RE: Fortigate Firewall Hardware and Software

Dear Councilors:

The Mayor has authorized legislation for the purchase of Fortinet Fortigate Firewalls with five years of support and upgrades along with supporting Software and Licenses. This purchase will provide Next Generation Firewall technology to replace existing hardware that is reaching its End of Support. In addition, this newer technology will provide the City of Lima, OH and the Lima Municipal Court with a higher level of overall security, better redundancy and it will help to ensure availability of network services.

This purchase will be made on Ohio State Term Schedule CDW-G # 534605 for a total cost of \$35,142.90 and the cost will be distributed as defined below.

Should additional clarification be required, please contact this office.

Sincerely,

Nathan Bayliff

Chief Technology Officer

Approved: \_\_\_\_\_  
Michael Caprella, Utilities Director

Approved: \_\_\_\_\_  
Sharetta Smith, Mayor
